## F2. Mail order pharmacies

You can get prescription drugs shipped to your home through our network mail order delivery program. If the mail order pharmacy gets a prescription directly from a prescriber, they will call you first to confirm you want the drug(s). Please make sure to let the pharmacy know the best way to contact you.

You also have the choice to sign up for automated mail order delivery.

Typically, you should expect to get your prescription drugs within 10 days from the time that the mail order pharmacy gets the order. If you do not get your prescription drug(s) within this time, if you would like to cancel an automatic order, or if you need to ask for a refund for prescriptions you got that you did not want or need, please contact us at the number at the bottom of the page. To learn more about mail order pharmacies, see Chapter 5 of the *Member Handbook*.
